Summary: A full-color guide for both beginners and experienced composters, with an AZ reference section
Composting is fun, easy and very satisfying! You can make compost even if you live in an apartment or don't have access to a garden. There are lots of good reasons to make compost: A third to two-thirds of the average garbage can contents can be composted, so you can lighten your bin and stop it smelling. Less organic material is sent to landfill, so less noxious liquids and greenhouse gases especially methane are produced. Composting saves you money you won't need to buy any more peat-based compost! This book will give you all the information you need for successful composting.

Complete guideline for publication fans. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
